- **BRAND NEW EQUIPMENT**
- **FULL SERVICE SUPPORT**

WHY CONTRACT PLANT RENTAL.

Contract Plant Rental is part of the biggest Contract Hire group in the UK and Ireland. We are part of the Ballyvesey Holdings group which supplies vehicles, plant and equipment for many of the major companies in the UK.

Equipment Contract Hire allows you to have all the benefits of having new equipment over an agreed period of time without the unpredictable costs of ownership. You also have peace of mind that service maintenance, warranty issues and repairs are part of the hire cost.

A huge benefit is there is no upfront deposits and full VAT payments to find, with the obvious advantage of the equipment being off balance sheet and no concerns about selling the equipment and the risks with global valuations meaning you could be looking at losses.

You can budget effectively for all your equipment costs which are fixed for the length of the contract, with no service or maintenance costs you didn't budget for. The added value is our experience in helping you find the equipment solutions right for you with the manufacturer you choose and a partner who will work hand in hand with you throughout the duration of the contract with innovation training and support, not just a transactional service at the beginning and at the end of the hire.

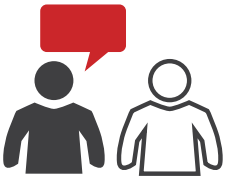

WHAT ARE THE BENEFITS?

- ✔ Complete production budget control and futureproof forecasting
- ✔ Full site evaluation with non-bias approach to OEM and specification options
- ✔ No hidden return condition and charge
- ✔ Flexible upgrade during contract period
- ✔ No deposit
- ✔ No upfront large VAT
- ✔ Full warranty & maintenance
- ✔ New equipment
- ✔ Off balance sheet
- ✔ Full UK Coverage
- ✔ 24/7 - 365 days a year call out service
- ✔ Brand new machines
- ✔ Latest emission technology

MAINTENANCE SUPPORT

24/7 SUPPORT - 365 DAYS A YEAR

Equipment of any type has the likelihood of breakdown; we have a commitment to maintaining a modern fleet that is less likely to break down, but if it does you can be assured we have the backup engineers to get you going again with the minimum of downtime.

All our contracts come with full maintenance, warranty and breakdown support included in the hire rate.

Our central service department tracks breakdowns and service calls to ensure the level of service is to the standard expected no matter where you are in the country. Our depots are strategically placed to cover all areas of the UK and Ireland.

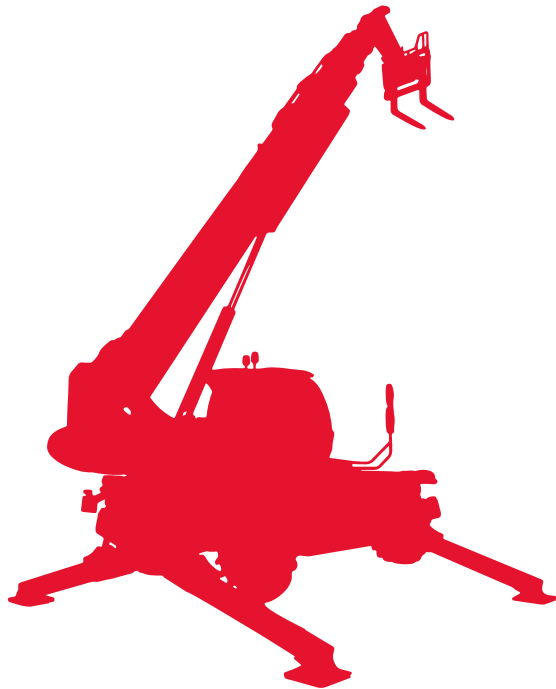

WASTE & RECYCLING

WASTE NOT, WANT NOT.

With the Circular Economy at the forefront of the recycling & waste management industry the demand for specialist equipment able to handle recyclables and secondary resource material both loose and bailed couldn't be greater.

At CPR we work in partnership with waste companies to supply state of the art vehicles designed to give the best possible productivity against carbon footprint.

Whatever your requirements Contract Plant Rental will offer a solution, we can quote you for your next Material Handlers, Compactors, Loading Shovels, Telehandlers, Forklift Trucks, Walking Floor Trailers and everything in between from a manufacturer you trust.

VEHICLE TRAILERS

SOLUTIONS FOR:

- STGO CAT 1, 2 and 3
- Bulkers
- Low Loaders
- Beavertail
- Flat Bed
- Curtain Siders

FROM A TO B AND BEYOND.

Ballyvesey Group, has a long history in trailer production and commercial vehicle sales, Montracon has made steady progress in the UK market over the last 40 plus years. A measured expansion programme involving considerable investment in facilities and equipment has ensured increasing production efficiency plus steady growth to the point that today Montracon's manufacturing plants each rank with the best of any in Europe.

Contract Plant Rental can offer probably the widest range of trailers available from any of the major European players, on a contract hire basis which means reducing all the risks and hidden costs from ownership.

We can offer a dedicated refurbishment and repair facility near York, England which offers accident repairs, refurbs (all makes and models) fabrication or bodywork repair and repaint or livery upgrades. To complement its after sale service we also have numerous parts depots located throughout the country which provides ALL makes of trailer parts.

ENVIRONMENTAL

Contract Plant Rental is fully committed to reducing its environmental impact and this has been achieved by good management and innovation in all our products and processes.

At Contract Plant Rental we are constantly assessing ways to reduce the carbon footprint and environmental impact within the industry, providing our customers with the latest machinery & innovations to help combat emissions.

Where possible we suggest machinery with the latest Tier 4 emissions standard, diesel particulate filters and the use of bio-oils and fuels. We also strongly advocate for operator efficiency training to both minimise your running costs and the impact on the environment.

- A modern fleet which has best performance on emissions
- New enhanced engines will drastically reduce emissions and particulate matter output
- We monitor and reduce fuel consumption across our fleet
- Our depots undertake all maintenance duties reducing our transport footprint
- We offer training for operators on best environmental practice and fuel saving
- Bio-hydraulic oil is available on our equipment

Added Value Training

For every contract you take out with Contract Plant Rental we will train your staff on a one day Environmental Awareness course which could be one of your targets within your ISO 14001 management objectives, or we could do an independent Environmental Audit review from one of our experts on a site of your choosing.

Environmental impact are not just buzz words for Contract Plant Rental they are actions we take very seriously and as a current or future partner we will work with you to make sure your operations have the least Environmental impact achievable.

Types of courses and Environmental support are dependent on the length of contract and equipment.

BALLYVESEY GROUP

BALLYVESEY HOLDINGS

Established in 1970, Ballyvesey Holdings Ltd is a privately owned parent company which has a wide range of trading subsidiaries. The group's main activities are concentrated in transport and logistics, truck sales and aftermarket support, trailer manufacturing and spare parts sales, transport industry services, construction equipment sales and service and more recently property development, management and investment.

Ballyvesey Holdings Ltd can give you a complete turnkey solution for all your equipment and logistics needs, for purchase, hire or disposal of assets.

ADDED VALUE

COLLABORATION

We pride ourselves being partners for our customers not just suppliers. We welcome an open book policy on all charges and a lean procurement partnership which lets some customers take advantage of some of the deals our group can achieve.

We work with our partners for the safety and health of their workforce offering plant/people interface training, product familiarisation, inductions and various environmental and safety courses to keep your staff fully compliant and alert with compliance issues.

SECURITY

Contract Plant Rental has the latest security innovations from our manufacturers and work closely with them to develop and improve security features. We offer key security, immobilisation of machine and anti-theft tracking systems, along with telematics and additional MeckLock security if required.

We work closely with our customers to utilise the latest security standards and innovations, helping to prevent crime and reduce disruption to site and downtime.

- Remote immobilization
- Tracking systems
- Unique key security
- Immobilizer key or pin start

SAFETY

Equipment can be supplied with the very latest in health and safety technology. They are all fitted with audible reversing alarms and all large excavators come standard with dual-locking quick hitches, reversing cameras, alarms and check valves on hydraulic cylinders. Our machines can be fitted with a range of additional features such as:

- Emergency Remote Control System (ERCS)
- Fail restraint system railings (boxing ring)
- Height & Slew restrictors
- Safe load indicators
- Fire suppression
- Waste specification
- Seatbelt immobilisation

Every CPR machine goes through an extensive pre-delivery inspection before it arrives on site, ensuring quality control is maintained throughout.

At Contract Plant Rental we believe that your experience should be as stress free as possible:
We Support So You Can Do.
